FOLIKAPPA

Solution of NPK fertilizer 03.05.20 with boron (B), copper (Cu), iron (Fe), manganese (Mn) and zinc (Zn) with a low content of chlorine

DESCRIPTION

It is an integrated fertilizer with chelated micro elements that influence in a positive way on the qualitative aspects of production and make the fruits more resistant to handling and the preservation, through greater salification of the organic acid free.

The periodic use of this preparation fights and prevents any deficiency of potassium, ensuring a constant and balanced nutrition.
