

IDROKEL ZINCO

SOLUTION OF FERTILIZER HEALTH OF ZINC (EDTA)

DESCRIPTION

It is an essential element inasmuch as it is involved in the synthesis of tryptophan (precursor of auxin and indoleacetic acid) and various enzyme systems, which affect the metabolism of the nitrogen and protein synthesis.

A Zinc deficiency causes a general slowdown in the growth of plants, which is manifested with the shortening of the internodes and the typical appearance to rosette, internodal chlorosis and distortion of the margins of the leaves.

The zinc-deficiency occurs more frequently on pome fruit, stone fruit in the vine and in the citrus, with the fruits of the reduced form and are subject to abundant fruit drop.

Thanks to its special formula it is possible to have a rapid assimilation for away foliar and a fast absorption for away radical, allowing timely intervention and targeted, quickly correcting any nutritional deficiencies.

METHOD 'AND DOSAGE

pome fruit, stone fruit (apple, pear, cherry, peach, apricot, plum)

fertigation: 30-50 kg. / ha

Foliar: 400-600 gr. / hl

vine, kiwifruit, citrus and olive

fertigation: 30-40 kg. / ha

Foliar: 350-500 gr. / hl

horticulture: (tomatoes, eggplant, pepper, melon, cucumber, zucchini, salad, strawberry, bean)

fertigation: 30-50 kg. / ha

Foliar: 250-600 gr. / hl

flowers and ornamentals plants

fertigation: 30-40 kg. / ha

Foliar: 250-400 gr. / hl

industrial cultivation and extensive generally (potato, tobacco, corn, sunflower, corn, beet, medical)

fertigation: 40-60 kg. / ha

Foliar: 350-600 gr. / hl

The doses given are the result of applied and calculated for distributions to normal volumes of water.

For the correct application in the specific climate, soil and crop, it is advisable to consult your service technician.

Respect the time of shortage.

COMPOSITION

Zinc (Zn.) soluble in water.....	5.0%
Zinc (Zn.) chelated by EDTA.....	5.0%

RAW MATERIAL: chelate of zinc (EDTA)

chelating agents: EDTA

PH range that ensures a good stability of the chelated fraction: 4-7

The methods of analysis not reported are internal methods of the manufacturer.
